DEVELOPER

One of my hobbies is problem solving using code. I always try to improve my technique, and therefore, I aim to consolidate my career in this area.

PROFESSIONAL EXPERIENCE

CAST INFORMÁTICA S.A.

Service Desk Assistant (2019 - Present)

Responsible for analyzing and addressing technical demands from users across the entire group. I have developed a critical sense and the ability to solve problems in a practical and efficient manner, as well as acquiring knowledge in various tools and systems such as **Windows**, **Linux**, **Azure**, **AWS** and others.

CAST INFORMÁTICA S.A.

Apprenticeship in Technology Information (2017 - 2019)

Learning period where I provided general support by solving technical demands from Service Desk, Infrastructure and Cybersecurity teams.

EDUCATION

Anhembi Morumbi University

BSc, Computer Science (graduated)

Highlights for Web/Mobile Development, Software Engineering, Statistics and especially AI & ML disciplines. Mostly done using **Java**, **Python** and **JavaScript**.

SKILLS

Python, Java

*I used in academic projects on Programming Paradigms, AI & ML disciplines. Personal projects such as frame extractor using **OpenCV**, Manga scraper using **Selenium** and **BeautifulSoup**, and others. Java used mostly for data structure and algorithms practice.*

HTML, CSS & JavaScript

*I used in academic projects on Web/Mobile development disciplines, using frameworks like **Angular**, **Bootstrap**, **ionic** and others. I also implemented a new responsive notification layout in Cast group's ITSM.*

SQL e NoSQL

*I used in academic projects on Database, Web/Mobile development disciplines. I have also used Python extensively in Data Science environments such as **Databricks** to carry out **ETL** process just for study.*

Github @gabrieljsp

Other skills:

AWS (AWS Academy Cloud Foundations), English, Problem Solving, Critical Thinking, Teamwork.

São Paulo, 2024
